

HIGH PRAISE FOR FIRST YANKS TO ENTER THE FIGHT IN FRANCE, IS GIVEN BY Y. M. C. A. VISITOR

Y. M. C. A. secretary Charles Titus, who has seen a year's service in France, spent some hours in Ogdien last evening and called upon his friend of former years, Dr. E. P. Mills. Mr. Titus is one of the divisional secretaries of that organization in France and has been engaged during the last two weeks in Liberty loan campaign work and was to have spent some time in the Welfare Work campaign which is due to come before the public notice in about a month from now. Owing, however, to the widespread epidemic of Spanish influenza, this work has to be abandoned and Mr. Titus left the city at midnight for his home in Sacramento.

Mr. Titus expects to receive his call to return to his divisional headquarters in France in a short time and, speaking of the work of the "Y," reiterating what is now a well known fact that it is an absolutely indispensable form of service for the soldier and the sailor, evidencing a care on the behalf of the people at home for the power of any one man comprehensively to state. Not in sensational and startling and outstanding forms of service alone, but in the multitudinous details of common service, the "Y" at home and abroad is a constant reminder to the fighting man of the world," said Mr. Titus.

Through the noble and unselfish service rendered by two school teachers of Ogdien who volunteered as influenza nurses, the lives of four stricken Ogdien people, members of one family, have probably been saved, according to Dr. J. W. Pidecock, who has attended the patients. The two young women requested that their names be not used but they are both well known Ogdien girls.

The family is that of Edmund E. Waldram, rear 2766 Jefferson avenue, four members of which have been stricken by the dread disease and were in a serious condition. A call was made for volunteer nurses to attend the family last night and, despite the fact that the disease was prevalent there in virulent form and was often offered themselves as nurses might greatly endanger their health by exposing themselves to the influenza, the two young women responded.

They stayed all night with the family, taking splendid care of the four sick people and not sparing themselves. This morning when the doctor called to see his patients he reported that death had probably been averted through the noble work of the young women and commended them highly.

This is only characteristic, said Supt. Johnson this morning in telling of the incident, of the spirit and work which the teachers are offering during the crisis incident to the epidemic of Spanish influenza. Nearly fifty have responded to the call for nurses and workers, he said, and they have been sent out to homes and hospitals or wherever else their services are needed. Eighteen were detailed yesterday, he said, and have been loyally helping to fight the epidemic.

Besides this work, some of the teachers are in the Red Cross rooms, working on supplies for the emergency hospital.

BOYS ARE HELD FOR THE CHRISTIAN SCIENCE DELINQUENCY OF TWO GIRLS ON THURSDAY

Officers of the Juvenile Court of Salt Lake City made a trip to Ogdien yesterday for the purpose of arresting two boys aged sixteen belonging to the company of Singers Midgets. The boys, by name, Smith and Singer, will be charged with aiding the delinquency of two young girls of Salt Lake.

WAR BULLETINS

LONDON, Oct. 18.—1 p. m.—Belgian cavalry is pursuing the retreating enemy on the Flanders front today with the object of cutting off his retreat to Ghent. The artillery is following swiftly and carrying out a vigorous bombardment with the same object.

The town of Blakenburghe on the Belgian coast southwest of Zeebrugge, was occupied by allied forces today.

LONDON, Oct. 18.—The allied troops in Serbia continue successfully their advance northward from Nish. A statement from the Serbian war office announces that the Serbs have captured Kruchevats, thirty miles north-west of Nish.

AMSTERDAM, Oct. 18.—Huge fires have been seen in the direction of Bruges, reports from Flushing say. The flames are spreading.

SALONIKA, Thursday, Oct. 17.—Greek troops today completed the reconquest of the regions of Greek Macedonia which have been held by the Bulgarians and Turks.

ZURICH, Oct. 18, Havas.—Official statements issued by the Entente war office no longer are published in Germany. Rumors reaching here are to the effect that there have been outbreaks among the soldiers at the front.

Abusive placards concerning the emperor, the crown prince, Field Marshal von Hindenburg and General Ludendorff have been posted in various railroad stations in Germany.

VIENNA, Oct. 18, via Basel, Switzerland.—Steps for the organization of Austria on a federalized basis were proclaimed by Emperor Charles today. The plan does not include the union of Austrian Poland with "the independent Polish state," the emperor declared.

The city of Trieste and the Trieste region will be treated separately "in conformity with the wishes of the population."

Berlin Admits Repulse
BERLIN, Oct. 18.—Via London.—Enemy attacks on the German lines yesterday between Le Cateau and Alsouville resulted in the penetration of the lines at isolated points, army headquarters announced today.

Zeebrugge in Flames
AMSTERDAM, Oct. 18.—It is reported that Zeebrugge is partly in flames. The outbreak of the fire was accompanied by terrific explosions, suggesting that the Germans are destroying munition dumps and hangars.

Foch Gives the
BRITISH CREDIT

Break Through Hindenburg
Line Brought About the
German Peace Offer.

LONDON, Oct. 18, Via Montreal.—Marshal Foch a few days ago personally told Field Marshal Haig that it was that British break through the Hindenburg line that brought about the German peace offer, the London correspondent of the Manchester Guardian says he learns indirectly but in a most unquestionable way.

German Garrison
Fails to Get Away
From U-Boat Base

LONDON, Oct. 18.—Some of the German garrison failed to get away from the sea. The men were handed over to the Allied forces by the civilian population.

In the area between Bruges and the sea large captures of Germans are not expected as the sector has been lightly held by the enemy.

It developed today that King Albert flew over Ostend when it was still occupied by the Germans.

At an open air meeting in city hall square at 3 p. m. yesterday, Dr. Walton Hubbard of the Christian Science board, addressed an audience on Christian Science. He was introduced by Mrs. Mary E. Tolmie, who said:

"There never was a time in the history of the world when people were turning more earnestly to God to deliver them from their distresses, and this deliverance can come only through right thinking."

"We read in second Corinthians, 'For the weapons of our warfare are not carnal, but mighty through God to the putting down of strong holds; casting down imaginations, and every high thing that exalteth itself against the knowledge of God, and bringing into captivity every thought to the obedience of Christ.'"

"Christian Science teaches us how these thoughts may be brought into obedience to Christ through mental activity."

"We have one with us today who will deliver this message of right thinking as fully as it can be done in one short lecture."

"I take great pleasure in introducing Dr. Walton Hubbard, C. S. B. member of the board of lecturership of the Mother church, the First Church of Christ, Scientist, in Boston, Mass."

Dr. Hubbard said:

In discussing the subject of Christian Science, it is my purpose to tell you some of its discoveries and foundations, Mary Baker Eddy; and to state briefly some phases of its logical reasoning, and the results following its application.

Mrs. Eddy was peculiarly fitted not only for the discovery of Christian Science, but for its presentation and explanation. She was naturally and inevitably the author of the Christian Science text-book, "Science and Health with Key to the Scriptures."

From early childhood she manifested a deeply religious nature. She was a tireless student and investigator. In addition to an ability as a writer so that from girlhood she was a contributor both in poetry and prose to representative New England publications.

Those who are familiar with Mrs. Eddy's work, marvel at the immense capacity for independent thinking and research which she manifested.

She tells us that she always felt impelled to hunt for the law of healing. She says: "During twenty years prior to my discovery I had been trying to trace all physical effects to a mental cause; and in the latter part of 1866 I gained the scientific certainty that all causation was mind, and every effect a mental phenomenon." ("Respectation and Introspection," p. 24.)

No wonder that this persistent and unselfish search for truth should have been rewarded by the discovery of Christian Science!

How Discovery Was Made.
For three years following her discovery Mrs. Eddy devoted all of her time to a deep study of the Scriptures, seeking a solution of life's problems.

This investigation revealed the fact that the entire Bible record teaches conclusively that a right understanding of God has always brought dominion over all material conditions, and that when the knowledge of Truth has been correctly applied it has always been attended by healing and regeneration. The Scriptures abound in evidence that to understand God brings healing.

God Is Mind.
Let us consider the fact that God is Mind, the only Mind, for to the degree that we recognize this great truth shall we be able to get rid of sickness and sin.

Perhaps not all have been in the habit of thinking of God as Mind although most anyone admits that God is wisdom. The word wisdom has generally been defined to mean a degree of knowledge so that infinite wisdom—wisdom without degree—and infinite Mind are the same.

We may illustrate the divine Mind by using the ordinary conception of a man's mind as an example, for although the human mind is not real, in certain finite ways it counterfeits the divine Mind.

You say your friend has a fine mind. You say you know this because he has many fine ideas which he expresses. You have never seen his mind, but you have known the expression of it in ideas. If he never moved a muscle, never spoke a word, you would rightly conclude that there was no mind there. So a mind to be called a mind must be filled with ideas, and an idea by virtue of being an idea must be expressed. It is impossible to conceive of a mind filled with ideas yet unexpressed, for a mind with no expression is not a mind, but a blank. You would say that a rock has no mind and no ideas simply because it has no expression, for where there are ideas there is expression. The infinite Mind therefore is filled with an infinite number of ideas or thoughts which must be expressed and activity.

the reflection, the manifestation of these ideas constitute man and the universe. God's ideas express Him "in countless spiritual forms." These ideas range from the infinitesimal to infinity, and the highest ideas are the sons and daughters of God. (Science and Health, p. 593.) As God's ideas we exist in divine Mind, and are perfect, spiritual, and immortal;—and because we exist in God the Scriptures declare that "In him we live, and move, and have our being."

There is a further quality of an idea that we must consider. An idea has no power to do anything or to be anything except as an idea of the Mind in which it exists. It cannot change itself or become more or less or different than Mind intended it should be, for it has no volition of its own and must be expressed exactly as the qualities of the Mind whose idea it is.

For example, if you have a thought of love for your neighbor, this idea cannot get away from you and change itself into a thought of hate. In like manner the ideas in Mind must express exactly what Mind intends they should express.

Man is the perfect idea of infinite Mind. God, and in such an idea has only divine volition. He has therefore no volition to choose to do evil, or to be sick, nor can he become separated from the Mind which contains him.

Man, then, God's idea, God's image and likeness, has all the qualities of God and not a single quality which is not of God; therefore he is healthy and holy; spiritual, perfect, immortal.

Mortal Ideas Unreal.
The recognition of the fact that God is Mind, and that the real and spiritual man lives within this Mind leaves no room for a mortal, material, sick and sinful man, yet we have the problem of materiality with its sickness and woes to deal with. Let us see if we cannot deal with them by means of Christian Science.

Nothing seems more real of the human mind than does matter, yet the most eminent physicians of the present day are quite at one in saying that it is impossible to prove that there is such a thing as matter. They say that matter is a function of something outside itself, the expression of energy; and this is just another way of saying that matter is an expression of thought. Christian Science agrees with them in saying that matter is an expression of thought, but points out further that matter is an expression not of right thought but of wrong thought; that all right thought, God's thought, real thought, must express God's nature, and is therefore spiritual, not material, and is expressed in spiritual things, not material things. The whole material universe, with all its sin, sickness and death, is just the manifestation of this wrong material thought which counterfeits the spiritual.

The sum total of these material beliefs Mrs. Eddy has named mortal mind. It includes the belief in matter, all the so-called material laws; evil, disease, and death; material man and the material universe. These various beliefs are not of God because they are contrary to His Nature. The material man manifests sin, sickness, and materiality, which are the very opposite of the qualities of health, holiness, and spirituality which the spiritual man must inevitably manifest as the image and likeness of God. The material man is therefore but a counterfeit—an expression of material belief and not of that truth which is God.

It is not maintained that the doctrine of the unreality of matter, which is unquestionably logical and true, has as yet been fully demonstrated. Any one who is seeking help in Christian Science need not trouble about it. It is much more important that you should recognize that God is willing and able to help and to heal you. Later on through the study of Christian Science His nature and allness will begin to unfold to you, and you will see that the unreality of matter is the natural corollary.

God's Law Applied.
Now you may accept the statement of Christian Science as good logic, but you must apply it in order to know that it is true. We have shown that mind is ever present and that man is the idea of that mind. To what can we apply this fact?

Are you believing that sorrow and worry and discord are real and that you are suffering from them? Let us dare to say that mind knows no such thing, and that you and I, God's ideas, can manifest only the joy and peace and harmony of the mind in which we live, for if we keep our thought filled with truth and love, we shall humanly manifest the divine mind in harmony and peace.

We have believed in and suffered from sin—hatred, envy, deceit and other evil beliefs, but in spite of their seeming reality, let us deny them their place in our thought, for in real-

Wright's A GOOD PLACE TO TRADE Tomorrow Morning

People are learning that there's thrift in morning shopping. There was a steady stream of customers last Saturday before noon. There'll be another steady stream tomorrow before noon. The following items are on sale from 9 to 1 o'clock only—not sold by phone.

Embroidery	Ribbon Specials	Men's Work Shirts
Embroidery edges, finest quality of Swiss and cambric. Solid and eyelet embroidery, for underwear; values to 20c. Special, per yard 9c	Plain moire, taffeta and faille ribbon, 5 to 7 inches wide; good variety of colors. Values that are exceptional for bags or hair bows. Values to 65c. Special, per yard 19c	Men's work shirts, blue bell chambray materials, dark blue color; full cut, McDonald's union made; \$1.50 values \$1.15

ity we are God's children. Mind's ideas and by filling our thought with this fact we shall humanly manifest more of the love, purity, spiritual power, and holiness of spirit.

Have you been troubled in your business? The application of Christian Science to business is not mysterious or occult, neither is it to be confused with will power or suggestion. It is the application of thoughts of honesty, mutual blessing, gratitude and generosity far above the standard of thought the business world has generally known, and this has brought many successful business conditions where before there had been business failures.

Those wrong physical conditions which have come through the admission of the world's thought of a material law of heredity, are healed and annulled when we learn that the only inheritance we have is of God, and hence good. "One is your Father, which is in heaven." Those wrong conditions which have come to us through our admission of thoughts of contagion and infection are healed when we learn that nothing but blessing can come to us through contact with God's children, with Mind's ideas.

There are myriads of difficulties that have come to us through our acceptance of the world's thought that air, and food, and water—those things which seem necessary to our material sense of existence at this time—are filled with lurking curses; that at every turn some unseen foe is likely to

strike us down. All these wrong material conditions are done away with when we learn that Mind's ideas live in the "atmosphere of love divine" and that Mind provides its ideas with an abundance of spiritual sustenance. Jesus said "I have meat to eat that ye know not of."

So there is no condition from which we have suffered individually, whether it be mental or moral or physical, which Christian Science does not heal.

WM. A. SHIPLEY IS HOME ON FURLOUGH

William Arthur Shipley, son of Mr. and Mrs. Robert Shipley of 203 Tracy avenue, is visiting his parents and friends in Ogdien while spending a ten-day furlough from the navy. Mr. Shipley has been stationed at Fort Monroe, Va., but prior to that time was on the ship Neptune.

While on sea duty he made two trips across the Atlantic to France with transports and one trip to Cuba, enjoying a variety of experiences during each trip.

The Ogdien boy enlisted December 12, 1917.

Remember, we make no charges on delivery.

JAS. ABRAHAM MAW TWENTY CARPENTERS BODY AWAITS WORD ARE WANTED AT FROM RELATIVES NITRO, W. VA.

Anyone knowing James Abraham Maw, found dead October 13 in a rooming house in Kansas City, will confer a favor on his relatives or friends, wherever they may be, by getting in touch with Police Chief Browning of Ogdien and reporting the knowledge of him they possess. Chief Browning today received a letter from an undertaking firm in Kansas City, in whose morgue the body is being held, asking if he was known locally. The letter follows:

"Chief of Police, Ogdien, Utah: Kindly have published in your papers that a body is at our morgue awaiting identification by his relatives or friends if possible to locate them."

"James Abraham Maw, found dead October 13, 1918, on the second floor of a building at 1411 Main street, Kansas City, Mo., at 10:30 p. m. A registration card was found on him bearing the name James Abraham Maw, 1409 Cass street, Omaha, Neb. Fair complexion, rather long gray wavy hair, weight about 175 pounds, cowl-like right side forehead, height 5 feet ten inches, light brown eyes, big gold tooth in front above on right side, hands show signs of hard work, no marks on body."

"Wore black felt hat, size 7 1/2, bought at United Hat Store, Denver, Colo., and blue serge suit bought at Nebraska Clothing company, Omaha, Neb. His shoes were dark brown and size 8 1/2. His shirt was size 16 and striped with green."

"This body is held at Elyer Bros. morgue, 1401 Main street, Kansas City, Mo., awaiting identification. Trusting your assistance in giving this to the public will help to locate some of his relatives, which will be greatly appreciated by us."

The local U. S. employment office has received orders to recruit twenty carpenters for the Nitro, West Virginia munitions plant. The minimum wage per week of seven days is \$5.87 or 62 1/2 cents an hour with double time for all over time. Transportation will be paid from any point in Utah for both carpenters and laborers who will go to Nitro. Applicants residing out of state of Salt Lake and Ogdien must get receipts from the railroads when purchasing their tickets in order to get a refund from the government.

English See the
AMERICAN TROOPS

The pleasure which the English people have in seeing the American troops is occasionally the pleasure of looking for, and seeing, their own kith and kin marching beneath the banner of the U. S. A. Here is a pleasing poem taken from the British Weekly of September 5th, signed M. R., and entitled "A Hampshire Morning."

He holds an American flag in his hand. Some golden flowers in the other. Five-year-old, waiting beside the gate To greet his American brother.

"Oh, they're coming at last, at last. He stands there, alert and steady. And here they come tramping along the road. They're off to France already.

"My boy, you're bully; good-bye my boy." He darts up the line with his flowers. "And where did you get that red hair son?"

"Good-bye dear soldiers of ours."

"Oh, when you're a man, my five-year-old."

You must tell your children the story How Americans cheered for an English child On their way to death, or to glory."

TRESPASS BY FOWLS

In the standard report of the Perri Vernard case in Municipal Court yesterday an error crept into the account of the city ordinance which ought to read as follows:

"It shall be unlawful for the owner of any domestic fowl, such as turkeys, ducks, geese, or chickens, to permit them to trespass or to go upon the premises of another, or to run at large within the limits of the city of Ogdien."

DRAFT MOVEMENT STOPPED
DES MOINES, Ia., Oct. 18.—Cancellation of the draft movement scheduled for October 21 when 3,900 Iowans were to go to Camp Greenleaf, Lyell, Ga., and Fort Mac Arthur, Cal., was announced today by Adjutant-General Lasher. This action was recommended by Governor Harding because of the influenza situation.

Lowlands of Belgium
To Be Inundated

LONDON, Oct. 18.—The Germans are preparing to inundate the low-lying lands south of the river Scheldt in eastern Belgium, a Central News dispatch from Amsterdam reports.

The inhabitants have been ordered to abandon their homes immediately.
